Charles Cornwall, president of Salem city council, died suddenly of a heart attack at about 12:30 p. m. today at his home, 1464 Cleveland st. He was 65. Although he had been ailing for two months, death came unexpectedly.

Mr. Cornwall had been active in city council affairs for the past 10 years, serving both as a ward councilman and as the presiding officer.

He served several terms as Fourth ward council representative before being elected council president. He was serving his third term in the presidency.

A native of England, where he was born Dec. 20, 1882, he was employed in the engineering department of the Mullins Mfg. Corp. as a die designer. He would have completed his eighth year with Mullins on Thursday.

He worked in the Mullins drafting room one time previously before taking employment with the E. W. Bliss Co. and the Electric Furnace Co.

His wife, Helen, and two daughters survive. The body is at the Arbaugh-Pearce funeral home.

## SPEAKER MARTIN FORESEES CERTAIN PASSAGE OF TAX CUT, EVEN OVER A VETO

(By Associated Press) WASHINGTON, March 23—A house vote tomorrow of "more than three to one" will send the \$4,800,000,000 tax cutting bill to President Truman, Speaker Martin predicted today.

Noting the 78 to 11 margin chalked up in the senate, the Massachusetts Republican declared: "The tax cut is certain. The veto will be overridden."

But Senator Taft of Ohio, chairman of the senate's GOP policy committee, was less positive. "Nearly everyone on Capitol hill looks for Truman to veto the bill," he said.

Taft told a reporter he thinks the president first will send congress a message urging an additional outlay of between \$2,000,000,000 and \$3,000,000,000 for military preparedness as part of this country's new stop-Russia policy.

"I don't know what effect that will have," Taft said.

However, an administration official who asked not to be quoted by name agreed with Martin. He said he sees "no chance" that a one-third-plus-one vote can be mustered in the senate to uphold a veto.

Martin said house Republicans would try to get the senate tax cut version approved by unanimous consent today.

But Democratic Leader Rayburn of Texas, served notice he would put a stop to that. Hence it appeared unlikely that the house could get around to a vote until tomorrow.

Rep. Knutson (R-Minn.), author of the original tax cutting bill, announced he is ready to accept the senate revisions. They trimmed the amount of the tax slash from \$6,500,000,000, as approved by the house to \$4,800,000,000.

**Expert Speed**  
House acceptance of the senate figure will speed the measure to Truman. The President used his veto power twice last year to kill two Republican attempts to cut taxes by \$4,000,000,000.

But the odds are against the President now.

The senate's 78 to 11 vote late yesterday was 13 more than the two thirds majority needed to override a veto if the lineup remains the same.

## JUBILANCE HIGH; ITALY HAILS MOVE

Reject Offer of Yugoslavs To "Trade" Trieste For City of Gorizia

(By Associated Press) ROME, March 23—A foreign ministry spokesman said today Italy has flatly rejected Yugoslavia's offer to swap Trieste for the Italian City of Gorizia.

The Western allies proposed the return of the Free Territory of Trieste to Italy last Saturday. Yugoslavia countered yesterday with an offer to relinquish her claims on Trieste if Italy will give up Gorizia, to the north.

The spokesman said: "It is clear that Italy cannot accept the separation of a part of Italian flesh bartered for another part of Italian flesh."

The Italian answer came only a few hours after great throngs roaring "Viva Trieste" welcomed Premier Alcide De Gasperi and Foreign Minister Count Carlo Sforza back to Rome.

**Pandemonium At Station**  
There was pandemonium at the station as Romans, for the first time, bellied out their satisfaction with the Western Allies' proposal to return the Free Territory of Trieste to Italy. De Gasperi and Sforza were in Turin Saturday when French Foreign Minister Georges Bidault first announced the idea.

Amid continued cries of "Viva Trieste Italiana," "Viva De Gasperi" and "Viva Sforza," De Gasperi told the crowd it was too early to make any definite forecast on the future of Trieste, where Italian and Yugoslav border patrols exchanged shots yesterday.

"We do not know yet what will come," he said. "We must still wait. We must have tenacious patience. Nothing that happened was improvised or occurred without effort. And this effort was above party lines."

Sforza also spoke, but the shouting of the crowd virtually drowned out his words.

Tension was high over an exchange of shots between Yugoslav and Italian border patrols in the Trieste area.

The shooting episode occurred at the border separating the Yugoslav and the U. S. - British Zones of Trieste. An Italian policeman was wounded.

No immediate reason was given for the shooting.

U. S. officials said Italian police, recruited by the American military government, were patrolling yesterday inside the British-American zone when the Yugoslavs opened fire with machineguns. The Italians returned the fire with their pistols. There was no report on whether they hit anything.

It was the first incident of gunfire since the western powers asked Russia and Yugoslavia Saturday to join in returning Trieste to Italy.

## Pennsylvania Hard Hit As Floodwaters Continue

(By The Associated Press) CHICAGO, March 23—Flood waters from many rivers and streams spilled over thousands of acres of land in several east and midwest states today, leaving hundreds in some sections homeless.

Hardest hit by the rampaging waters appeared to be sections of Pennsylvania and communities along the Susquehanna and Chenango rivers in South Central New York.

But there were local floods in Illinois, Indiana, Missouri, Michigan, Iowa, Ohio and Vermont. No heavy rainfall was predicted today for the area menaced by the rising spring waters.

Precipitation was reported in parts of southern Illinois and Southern Indiana and in Tennessee and Alabama. Showers and thunderstorms continued from Missouri eastward across parts of Illinois and Indiana to the Atlantic coast. There were heavy local thunderstorms from Kentucky southward into Georgia, Alabama and Tennessee. Light snow and rain fell in parts of the Pacific northwest. Temperatures near normal prevailed over other sections of the country, correspondents said.

**Three Rivers Destroyed**  
In Pennsylvania, the state's three principal rivers were the main threat. The Susquehanna and Delaware have overflowed their banks while the Allegheny was backing up from flood stage. Many small streams were out of their banks at various points.

In Maryland, one of the communities in Western Maryland has been hit by the rising waters. Floods broke out in the town of Frostburg, Md., and in the town of Williamsport, Md., and in the town of Hagerstown, Md.

Friends may call at the home Wednesday afternoon and Thursday morning.

Interment will be in the cemetery at 11 a. m. Friday.

Funeral services will be held at 2 p. m. Thursday at the family home, 233 High st., with Rev. W. J. Smith officiating.

By PEARL WALKER

Facing rows and rows of old shoes day after day lone-handed is not a hum-drum life when you like to mend shoes and make your own spice.

Michael (Mike) Pauline of 133 E. State st., and N. T. Orashan of 124 E. Wilson st., veteran cobblers, who help to keep Salem citizens walking, take the drab out of the day in pleasant conversations with customers.

Practicing the policy that a pleased customer is always a customer, they are serving three generations in some families.

**Like Their Work**  
"Because I like my work, I have stuck to it," Pauline commented, while Orashan admits he would rather make shoes than mend them. Both learned shoemaking in their native land and are actually not cobblers. These men aim to restore the new look to old shoes by the use of modern electrified machinery. Soles are sewed and cemented on the shoes, instead of tacked on, the old way of cobbling.

Prices in leather have more than doubled in the past ten years, and this has brought shoe repairing prices to a new high.

A stranger came into Pauline's shop one day—a man with a wooden leg. Mike repaired his shoe and he was off. About an hour later the man returned. "Say, Mister; did you find a \$50 bill in the toe of my shoe?" "No," Pauline replied. Then he started looking through the scrap where he was working.

The floor folded up in a little way was the \$50 bill. Pauline received a reward of \$2 and the man went his way rejoicing.

Although Orashan has handled hundreds of pairs of shoes, too, he has never found any money in them.

**48 Years At Trade**  
The lure of travel brought Orashan to America, who is completing 48 years in this business.

In 1900, at the age of 14, Orashan started to learn his trade in Oradea, Romania. There shoes were made to order from the individual's measurements, which had been molded into a wooden last and was kept on file for recording.

After learning his trade he worked in the large cities of Cluj, Deva and Hunedoara, which at that time belonged to Austro-Hungary and in Eperjes, which is now part of Czechoslovakia. Traveling through Austria and Germany, he came to America in 1903.

Coming from Niles to Salem, he was employed by the American Steel & Wire Co. for awhile. Later he went to St. Louis, Mo., and worked for the Endicot Shoe Co., and also was employed by the Edwin Shoe Co., Newark.

Returning to Salem in 1911, he was employed at the Speidel & Son Shoe store until their building was destroyed by fire in 1923, when he started in the shoe business for himself at 129 S. Broadway. Continuing there until 1948, he moved to his new shop, a yellow brick building, which he erected the previous year.

Orashan married Ludovica Stroia of Salem. They have three children, Earl, W. Seventh st., contractor; Victor, of Detroit, and Mrs. Amelia Cavanaugh of E. Wilson st.

**Stayed Behind To Learn Trade**  
Mr. and Mrs. Matthias Pauline came to America in 1904, leaving their son, Michael, 14, in Mehlbach, Transylvania, to learn his trade. Completing his apprenticeship of four years for which he received board and room, the shoemaker joined his parents in Salem in 1908.

In 1912, he started to work for D. H. Mellinger, whose shop at that time was located in the room now occupied by the Smith grocery. After Mr. Mellinger's death he worked for his son, Harry, for awhile. For three years he operated a shop on S. Lundy ave. and since 1923 has been in his present location.

Never having had a long illness, Mike has worked steadily through the years. However, he has taken two years' leave coming to the States last winter he went by plane to Van Nuys, Calif., to visit his only son, Michael Henry, a few years ago.

Mr. and Mrs. Pauline spent three weeks in Atlantic.

Pauline married Josephine W. Becker in 1913, and they have five children, all in Salem. The youngest, David, is 13 years old.

Pauline's wife, Mrs. W. J. Pauline, is at 11 S. Union ave. and Mrs. Louis Pauline is at Washingtonville.

## VICTIM OF CRASH STILL CRITICAL

The condition of John B. Gillie, Jr., 21, of Youngstown, who was seriously injured in a head-on auto collision on Route 14 early Monday morning, was described as "critical" this morning by City hospital officials.

Mr. and Mrs. Victor Linton of Linton, Ind., are in fair condition today.

The body of their 15-month-old daughter, Sharon Ann, who was killed in the accident, was removed today to the Miller & Son funeral home in Brazil, Ind. Funeral service and burial will be held in that city Thursday afternoon. The child died of concussions.

**FURNACE CO. YEAR BRIGHT**

Directors and Officers of Salem Factory Are Re-elected Monday

The Electric Furnace Co.'s business outlook for 1948 compares favorably with 1947, it was revealed when the annual stockholders meeting was held in the main offices here Monday afternoon.

Directors and officers were re-elected, with F. T. Cope as chairman of the board and K. U. Wirtz, president.

Directors, beside Cope and Wirtz, are A. J. Hollis, R. D. Painter and Ralph S. Tyler, Jr.

**Other Officers**  
Other officers included: Vice president, C. L. West; treasurer, F. T. Cope; secretary, R. D. Painter; assistant vice president, Curtis H. Vaughan.

Wirtz, who presided at the stockholders meeting, reported that although the volume of sales orders for the year 1947 exceeded that for 1946, actual shipments were slightly less, partially due to difficulty in securing certain materials and inability to ship several foreign orders due to foreign exchange restrictions.

The Research and Experimental departments have also increased space and additional facilities available to enable them to greatly broaden the scope of their activities during 1948.

**Growing Organization**  
Organized in Salem in 1923, the Electric Furnace Co. was originally engaged exclusively in designing and building electric furnaces and kilns for melting non-ferrous metals and for annealing and other heating and heat treating processes on both ferrous and non-ferrous metal products and for ceramic processes.

In 1938 a fuel fired furnace department was added for designing and building gas and oil fired furnaces and kilns. Due to the company's many new developments in the fuel-fired furnace field, the company's sale of fuel fired equipment has increased to such an extent that it now equals out in some years exceeds its electric furnace volume.

The company also reports the recent installation of several of its new double deck return recuperative type chimneys decorating kilns in prominent potteries in this area.

**Store and Tavern Looted At Night**

Two cases of breaking and entering in the city Monday night, resulting in the theft of about \$25, were reported by the police today.

The Salem Appliance store on S. Lundy ave. and a tavern owned by Nick Iuka at 424 S. Washington were broken into. No loss was determined at the appliance store, but some cash was removed from the tavern.

Both establishments were entered by breaking a window, police said. Fifteen dollars was taken from the tavern cash register and from a man in a coat from a man who was in the store.

The police charged a man who was in the store with the theft of the cash.

The grand total raised thus far in 48 subscriptions for \$12,125, or 48 percent of the first minimum goal of \$25,000.

Chairman Charles McCullough and 48 other members of the union have been asked to give much time to work to fund raising in an effort to reach the goal.

## TAFT-HARTLEY ACT WILL BE NEXT ACTION

Conciliator Ching Turns Strike Settlement To Truman For Action

(By Associated Press) WASHINGTON, March 23—The United Mine Workers today rejected a government plan for ending the soft coal walkout. Cyrus Ching, federal conciliation chief, promptly went to the White House to report the union action.

Ching's move apparently was the first step toward invoking the Taft-Hartley law to halt the nine-day-old strike which has crippled railroad and steel mill operations.

Under that law, President Truman is empowered to set up a board of inquiry. After the board reports, the attorney general could ask for the injunction.

The government settlement proposal was turned down in a letter sent to Ching by a three-man UMW committee which received the offer yesterday.

**Lewis Did Not Sign**  
John L. Lewis, UMW president, did not sign the rejection personally.

The committee termed the government proposal "grotesque."

Ching's proposal, which was accepted "reluctantly" by the nine operators yesterday, called for creation of a fact-finding board to investigate the dispute over miners' pensions that touched off the walkouts.

However, Lewis would have to send the miners back to work before the plan would go into effect.

The UMW committee advised Ching it felt the proposal was made to "suck the coal operators, who have disintegrated their (work) agreement and to further defraud the beneficiaries of the welfare fund."

Therefore, they said, they could not recommend its acceptance by the mine workers.

The welfare fund to which the committee referred was set up in the work contract signed by Lewis and the operators last year.

Lewis wanted to use the fund to pay the miners a \$100-a-month pension. The operators balked at his plan, saying the union chief wanted to give pensions to miners who were not entitled to them.

Lewis charged the operators by their stand had "dishonored" the contract.

With that apparently in mind, the UMW committee told Ching today: "There is only one issue, i. e., Shall the existing agreement be honored?"

The letter went to Ching, less than an hour before a noon deadline set by the conciliation chief.

**Committee Signs**  
It was signed by UMW Secretary-Treasurer John Owens, Welfare Collection Officer: John T. Jones, and District 27 President W. A. Boyle of Montana.

Ching had told reporters after the offer was made that a formal rejection by the UMW would force him to turn the dispute over to President Truman.

That would open up the emergency steps available to the President under the Taft-Hartley act. That law provides first for appointment of a board of inquiry, which Truman could announce today. After the board makes its study—a matter of a week or 10 days—a court injunction could be sought by Attorney General Clark to halt the strike. A heavy fine could be imposed on Lewis and his United Mine Workers union if they did not obey the court order.

Most industry officials thought Lewis' rejection of the Ching proposal was certain—a mere formality.

The two boys were crazy about airplanes. So they rode their bikes 27 miles from their homes in Detroit to Selfridge Field. They wore their caps backwards like real pilots, and posed for a picture, top, in front of a DeHavilland biplane fighter. That was in 1936, and they were eight. ## Garden Club Members Get Pointers From Specialist

"You don't need a lot of flowers to have a colorful garden picture," Mrs. Mary Louise Davidson Johnson, Sewickley, Pa., consulting horticulturist, told members of the Salem Garden club and their guests at a charmingly-appointed Guest tea Monday afternoon in the Presbyterian church.

Discussing "Planning and Planting for Color Effects," Mrs. Johnson's talk was filled with helpful suggestions for making a beautiful flower garden.

Having a wide experience as a landscape gardener and a flower show judge, the speaker had the women to think in terms of light, shadows and colors in their relation to gardens.

Cautioning her listeners, Mrs. Johnson listed these "don'ts" for flower growers.

Tired, "All-In"—Listless Feeling Brought To Halt

As Vibrant Energy Is Released To Every Muscle, Fibre, Cell

Do you get up in the morning still tired, feel down-and-out all day? Have you checked-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wears down the red-blood-cells.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juices when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with acid blood and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood, start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your cheeks—firm flesh fit out in new clothes. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps build sturdy health.

City, Meadville, Titusville, Shick-shinny and Plymouth had been alerted for possible flood conditions.

About 50 families in West Nanticoke, Shickshinny, Hunlock Garden and Mocaqua evacuated their homes as the Susquehanna neared its flood stage of 28 feet.

At Quincy, Ill., on the Mississippi river, the South Quincy drainage district levee appeared in serious danger. Volunteer workers helped to sandbag the levee, where new weak points developed in a 300-foot section. Two river-front stove foundries closed.

At Canton, Mo., 15 miles north of Quincy, U. S. Highway 61 was closed for six blocks in the business district. In Hannibal, Mo., the Burlington railroad yards were under water and the river had flooded the lower floors of several buildings in the business district.

## AS LONG AS I LIVE by Ione Sandberg Shriber

© BY IONE SANDBERG SHRIBER; DISTRIBUTED BY NEA SERVICE, INC.

XXXIII  
THE road to the cottage was even darker than she remembered. They'd been driving for over two hours. It was well after 8 o'clock. The back seat, which had been empty, was full now, loaded down with boxes of groceries.

She'd thought it would be easy to get away from Rush while they shopped. She'd thought she could make some excuse for remaining in the car and then duck into a telephone booth somewhere. . . . But she hadn't had that chance. Rush had seen to it that she hadn't. He'd been very careful of her, treating her as though she were made of something fragile, like porcelain, and he stuck beside her like a burr.

They stopped, somewhere, for groceries, and when she said she was tired and would rather not come in with him, that he should get just what he wanted, Rush shook his head, said she'd been sitting too long and that it would do her good to stretch her legs.

When in the grocery store she got up her courage and said she thought she'd go out and get her coat because she was chilly, Rush said at once that he'd get it for her, and then, left in the brightly lighted store, with the shining plate glass window through which Rush could easily see her, she was too scared to use the telephone.

So she bought oranges and a quart of fresh strawberries and cream and butter and bread and some cold ham and lettuce and sweet pickles and then he was back with her coat and she thanked him and put it on and even though, almost at once, she grew too warm, she was afraid to say so.

They had supper in a drive-in

they passed because Rush said he wasn't dressed for a restaurant. So that even the chance of a ladies' rest room with a pay telephone was easily averted.

AND now they were almost there. They turned into the narrow lane that led to the cottage; the headlights picked out their route, a silent route except for the branches of the trees that lined the lane; the branches that moved and swayed in the lake breeze, murmuring a ghostly lonely song of their own.

Rush drove the car up and parked beside the dark cottage. "You're worn out, aren't you?" he asked, helping her up the steps and into the big living room with its beamed ceiling and the huge fireplace.

"I'll be all right in the morning," she said, trying to muster a smile. It was a sorry smile and so she said quickly, lest he misunderstand, "I'm too tired even to smile, Rush." Her hand automatically went out to the light switch. "Is the electricity on?"

"Sure," he said easily, helping her with her coat. "Everything's on."

"The telephone?" she asked and immediately sensed an awareness about him, a tensing, a waiting.

"It's only that"—she stumbled over a footstool—"I forgot all about Rinda. She'll be coming back to

Tophill and she's apt to be hurt when we aren't there."

"That's right. I forget all about her." He was standing motionless by the door, weighing something. Finally he said, "Well, we'll see, angel. We'll see if we have a telephone," and then he got there before she did and lifted the receiver.

But in a minute he turned back to her. "Nope. I guess it isn't connected. But we can have it connected tomorrow."

She nodded obediently. "You lie down on the sofa," he directed, "while I unload the car. Then I'll make up your bed and fix you a warm drink."

SHE did as she was told, silently, and he watched her until she was settled, then he came across to her and covered her with her coat.

"It's damp in here," he said. "Probably wouldn't hurt to have a fire. Take the chill off the room."

She was past words and anyway she could only defeat him by feigning obedience, then grasping any chance that came her way. So she nodded again and leaned her head back and closed her eyes.

She wakened to Rush's arms about her, raising her, and quite unable to help herself, she screamed aloud.

Instantly he held her tenderly, contrite that he had scared her. "Darling, darling," he murmured.

"Ann, it's me, baby. Look, I was only trying to get you undressed. It's bedtime. And you went sound asleep—I've got everything done—the car's unloaded—"

"Asleep?" she said incredulously. "I went to sleep?"

"Sure." He reached for her feet, removed her shoes.

"Rush, what a heavenly fire," she said, turning her head to look at the bright flames. "Why can't I sleep right here? The fire will put me to sleep again. Did you get my robe and slippers?"

"Everything," he said. "Nightie, too." He tossed the silken things across her legs. "You can sleep right here, of course you can. The idea had already occurred to me—the bedroom's pretty chilly. I've got my bed made up already." He indicated the other sofa with a nod of his head. "I'll fix yours while you're in the bathroom and then we'll have a nightcap."

Her legs were unsteady when she stood up and she thought, if only this were true . . . if only he meant it . . . and knew despairingly that she would never again know peace . . . and knew at the same time and hating herself for it, that if Rush should change his mind and decide to let her live she would only want to live if she could live with him.

# Kentucky Favored To Cope NCAA Title Over Baylor Tonight

## Wildcats Expected To Go Through To Victory By 7½

By CARL LUNDQUIST  
NEW YORK, March 23.—With men who claim they know basketball best, the way Wildcats of Kentucky were a 7½ point choice to beat the Fighting Bears of Baylor to night in the East-West finals of the NCAA tournament at Madison Square garden.

The experts accorded Kentucky that edge in the belief that the Wildcats are one of the truly great basketball teams of all time, but also with a wary eye to Baylor's recent upsets.

Kentucky reached a plane of perfection seldom achieved by any team by winning the NCAA eastern title from Holy Cross, 60 to 52, on Saturday. Tall and titanic, the Wildcats scored almost at will against the defending champions Crusaders in an awesome display of power.

Baylor, meanwhile, scored its second straight upset in beating Kansas State for the western title at Kansas City by the same score.

Several factors were reckoned in Kentucky's favor tonight, chiefly:

(1) The Wildcats are taller than the Bears. Both six-foot-seven-inch Alex Groza and six-foot-four Wallace (Wah Wah) Jones are bigger than any one of the Baylor starters and the Wildcats have several subs long on size and talent.

(2) Kentucky is much fresher for this game than Baylor. The Wildcats breezed through their opening against Columbia and were not out in toppling Holy Cross. The Bears, on the other hand, have twice won as underdogs and they bear the bruises and the aches of hard battle. Sparkplug Jackie Robinson has been suffering from internal bleeding since being in a hard collision in the regional playoffs against Arizona.

(3) Baylor has played in the Garden only once before; Kentucky has appeared in the top-shot palace many times in the past four years.

Coach Adolph Rupp of Kentucky refuses to accept the favorite's role. "We didn't even get Baylor scouted," he said glumly. "We thought Kansas State figured to win so we sent Assistant Coach Harry Lancaster out to scout its game against Wyoming. He didn't bother to look at Baylor and came on back. So what happens? Baylor beats Kansas State and we don't know anything about 'em. But I understand they're terrific."

Kansas State plays Holy Cross in the first game tonight. Both Kentucky and Baylor have

qualified for the Olympic tryouts starting Saturday. Latest team to enter the Olympic tournament is New York university, runnerup in the National Invitational tournament which has been named to replace invitational champion St. Louis University. St. Louis declined to play.

## Emswiler Says Effort To Shorten Cage Schedules May Be Pushed By OHSAA

By JAMES DAILEY

COLUMBUS, March 23.—H. W. Emswiler, Ohio High school athletic commissioner, said today that an effort will be made this spring to shorten future regular basketball seasons to 18 or 20 games.

He said he had sounded out many coaches and school administrators on the subject and they agreed generally that the present seasons are running too long by the time the state tournament is run off.

The state tourney this year will extend through April 3, the week-end following Easter because of a reluctance to hold the games during Holy Week. Many county tournaments were started this season as early as Feb. 16.

Emswiler said the State High School Athletic board of control would make a definite effort this spring to issue a referendum for a vote among the Athletic association's 1,100 member schools on the issue.

He said the shortened season, if recommended, could not be put into effect until the winter of 1949-50.

"If we just could move the regular season schedules back a week," the commissioner said, "we would avoid running into Easter and Holy Week every five years or so."

He said the schools objecting most to the change were those depending on basketball for their major sport. Some Class B schools do not play football.

"We could arrange a little leeway for these smaller schools," he said, "but most of the Class A coaches and administrators I've talked to are in favor of a shorter season."

Meanwhile, Emswiler said he was up to his ears in state tournament arrangements and wished he could hold the games in a bigger arena to accommodate everybody who wanted to attend.

"The arena up at Cleveland would be just about the right size," he said, "but of course it's not centrally located nor are the Cleveland schools in the association."

He said he expected the crowds Thursday to be fair, Friday just about right, and Saturday many people might just as well forget it. Class B teams play the semi-finals Thursday, April 1, Class A semi-finals are Friday, and Saturday the finals in both divisions will be held.

He was sorry he couldn't take care of the many hard-working officials, coaches and teams who had asked for admission to the games but couldn't make any exceptions, he said.

Emswiler also said there was little chance of the association going back to the pre-war 32 team style of tournament because of the attendance problem. Up to 1941 teams came to Columbus instead of deploying to the four corners of the state for regionals.

The state board of control, he said, would continue with the regional tournaments because it gave the various teams' followers an opportunity to watch their favorites in action and solved to some extent the problem of so many trying to get into the Coliseum at Columbus.

## COURT ACTION ON IN COAL STRIKE

(By Associated Press)

WASHINGTON, March 23—Court action to end the soft coal shut-down was promised by federal officials today unless:

1. John L. Lewis sends his United Mine Workers back to the pits voluntarily to end the week-old pension "vacation."

2. A meeting of miners and coal operators called by Conciliation Director Cyrus S. Ching produces some progress toward a settlement.

Neither of these possibilities was regarded as likely.

"One Staunch Lewis Lieutenant said in the field: 'The miners won't go back to work until they're ordered—not until this dispute is settled.'"

However, some industry representatives, thought Lewis might suddenly call off the pension demonstration today or next Monday to avert a direct showdown under the Taft-Hartley Labor act.

The legal club which officials say the government has poised for use is provided by the Taft-Hartley act. It permits a court injunction after a fact-finding board has reported the issues to President Truman. That procedure, however, would require at least 10 days.

## Forrestal to Ask More Men for Armed Forces

With him are his top aides: Army Secretary Kenneth Royall (left), Navy Secretary John L. Sullivan, Air Secretary W. Stuart Symington.

## LEETONIA

The meeting of the Past Matrons club of Leetonia chapter, OES, scheduled for Wednesday, March 24, has been postponed until March 31.

Mrs. Michael Burick has received an announcement of the marriage of her niece Miss Patricia McPadden to Donald Marshall. The wedding took place in Yuma, Ariz., Feb. 22. The bride is the daughter of Mr. and Mrs. Ross McPadden of Los Angeles, Calif., former Leetonia residents.

Mr. and Mrs. H. L. Fenstermaker and Mrs. Nettie Fair spent the weekend in Columbus with their daughter and granddaughter, Mrs. Harold Windram. Mrs. Fair remained for a week's visit.

Mr. and Mrs. C. M. Reese and daughters, Cheryl and Linda, of Columbus spent the weekend with Mrs. Reese's parents, Mr. and Mrs. William Anglemeyer.

### Pony Survives Fall

CLEVELAND, March 23—"Thunder," a black-and-white Shetland pony, munched apples today, apparently none the worse for a sudden "flight" into a 60-foot ravine.

Stabled in a two-car garage, Thunder sailed into the ravine when a high wind uprooted the garage—pony and all—and pitched her into the defile during the weekend storm.

We start with crude oil ... the stuff gasoline and motor oil and fuel oil and a thousand things are made of.

Last year, we used about a billion and a half gallons of it. We bought it or drilled for it in Oklahoma and Texas and a dozen other states.

Then we brought it as far as fifteen hundred miles ... pushed it through pipes ... or towed it in barges up the Mississippi ... up the Ohio ... or more pipelines ... to Latonia, to Lima, to Toledo, and to Cleveland.

Here it disappeared into a vast collection of complicated, expensive equipment — a refinery. After thousands of man hours and millions of feet of pipe and equipment for distilling, fractionating, cracking, dewaxing, it came out gasoline, motor oil, fuel oil.

Then ... hurry it up ... Ashtabula's almost out ... Columbus is getting impatient ... Zanesville's waiting — get it into the tank trucks ... or into pipelines ... out to the bulk stations ... more than a hundred of them all over Ohio.

And from there, at last, gasoline into the tanks of your friend who mans or owns a Sohio station ... or fuel oil in your own basement.

Yes, that's the job. That's a quick look at our business in 1947.

Did we get rich? Well, not exactly.

We said we used about a billion and a half gallons of crude. Last year we had a net earning of \$16,390,585 ... and that's a little more than a billion and a half cents. (This figures out to 1.1462¢ a gallon.) Is it too much ... a cent a gallon? Would you do it?

"For 16 million?" you say ... "Why sure I'd do it!"

Oh, but just a moment. In the last five years, we've had to invest \$106,834,000 in new plants and equipment. In 1947 alone, we invested \$29,130,000 ... 13 million more than we made last year ... for new wells ... new pipelines ... new refinery equipment ... new trucks ... new storage tanks ... a few new stations ... just to serve Ohio people the way they want and need to be served! What is in the future? To serve you more ... more of everything is needed ... more wells, more pipelines, more refineries, and distribution equipment.

Is this easy? No, it is not easy ... but, it has to be done.
